PORTFOLIO COMMENTARY

Financial assets have staged a significant recovery in value so far in 2019. In spite of generally weak economic data, market participants have focused on the unwinding of the biggest concerns that confronted investors in 2018. Firstly, the Federal Reserve have adjusted their future hike path meaning the probability of a further interest rate hike in 2019 has collapsed. At the same time, a resolution between the US and China over trade terms has become increasingly likely. Global equity markets have responded favourably to these developments and have rallied 12.2% in USD terms so far this year. Fixed Income securities have also generated positive returns with the Global Aggregate up 3.1% in hedged USD terms as government bond yields have fallen in conjunction with a rally in corporate credit.

The GMAP C-Class returned 4.9% in Q1 2019 versus the benchmark return of 6.1%. In aggregate, our equity managers marginally underperformed the benchmark whilst our alternatives allocation lagged both equities and fixed income as beta rallied. Our Fixed Income results were pleasing, with the combined holdings outperforming the benchmark index by 0.5%. Of our managers, the SF Global Best Ideas Fund was the best performer, returning 14.2% (USD) and outperforming global equity markets. Fidelity EM also outperformed, returning 12.9% (USD) versus 9.9% (USD) for the broader EM complex, following a difficult 2018.

ACTIVE MANAGERS IN FOCUS

Man GLG Japan Core Alpha Equity

This strategy invests into large and mega cap Japanese equities with the aim of outperforming the TOPIX Index. The Fund is managed by Stephen Harker, who has over 30 years' experience investing into Japanese equities, and two supporting portfolio managers. The portfolio typically consists of 50 to 70 stocks and has a slight bias towards Value, whereby the Fund rotates out of stocks which have performed strongly and into names that they believe are temporarily out of favour. The Fund is currently overweight Banks, Automakers and Real Estate names whilst remaining underweight Healthcare, Consumer Staples and Tech.

Lyxor/Sandler US Equity Fund

Andrew Sandler is a broad market US long/short specialist with over 20 years' experience running this strategy. Portfolio construction is more dynamic than peers in terms of both stock selection and the management of net exposure; the latter is calibrated by their views of the top down environment, with special consideration given to the credit cycle. The strategy does have a Growth bias, which we feel the manager has the ability to moderate when the environment becomes less constructive. This should also contribute as a diversifier for the Value leaning characteristics of much of our existing US exposure.

Past performance is not a reliable indicator of future performance. If the information is not displayed in your base currency, then the return may increase or decrease due to currency fluctuations

IMPORTANT INFORMATION

The Fund is a sub-fund of the Stonehage Fleming Pooled Investments (Ireland) plc (the "Company"), an open-ended umbrella investment company with variable capital and segregated liability between Funds incorporated with limited liability in Ireland under the Companies Act 2014 with registration number 525228.
