TM Stonehage Fleming Global Equities Fund Class A

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Income): GB00B60YKG92

Objectives and Investment Policy

The objective and investment policy of the Fund is to achieve capital growth and an element of income.

To achieve the objective, the Fund's assets will be invested predominantly in UK and international regulated equity funds. There may be some use of derivatives for hedging or Efficient Portfolio Management purposes. In seeking to meet the investment objective, a portion of the Fund's property may be invested in units or shares of collective investment schemes managed or operated by the Investment Manager or an associate of the Investment Manager. As indicated above, the property of the Fund will be invested so as to provide a prudent spread of risk and to achieve capital growth and an element of income.

The Investment Manager reviews, on an ongoing basis, the objectives of the underlying funds into which the Investment Manager invest the Fund and they consider their appropriateness against their asset allocation views and assessment of manager skill.

The Fund is a UCITS scheme as defined for the purposes of the FCA's Collective Investment Schemes Sourcebook as amended (the "Rules") and may also invest in other asset classes specified by the Rules and within the limits of the investment and borrowing powers prescribed by the Rules and the Fund's Prospectus. Derivative and forward transactions may be used by the Fund. Subject to the Fund's objective, policies and investment powers, it allows the Investment Manager to make discretionary choices when deciding which investments should be held in the Fund.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income units. Investors can buy and sell units on demand when the scheme prices daily at 10.30 pm.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The Fund has a concentrated portfolio (holds a limited number of investments) and if one or more of these investments declines or is otherwise affected, it may have a pronounced effect on the Fund's value.
- More political, economic or structural challenges face emerging markets or less developed countries than developed countries which may increase volatility and uncertainty.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.25%
Exit Charge	5.25%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.33%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 2nd October 2019. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Expenses Payable out of the Property of the Fund" of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk
