

# Non-UCITS retail scheme Key Investor Information

tutman.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## TM Stonehage Fleming Global Equities Fund II Class B

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Income): GB0033401901

### Objectives and Investment Policy

The objective and investment policy of the Fund is to achieve capital growth and an element of income.

The Fund will generally only invest in Units in other regulated collective investment schemes. The Fund's assets will be invested predominantly in UK and international regulated equity funds. There may be some use of derivatives for Efficient Portfolio Management. In seeking to meet the investment objective, a portion of the Fund's property may be invested in units or shares of collective investment schemes managed or operated by the Investment Manager or an associate of the Investment Manager.

The Investment Manager reviews, on an ongoing basis, the objectives of the underlying funds into which the Investment Manager invest the Fund and they consider their appropriateness against their asset allocation views and assessment of manager skill.

The Fund is a non-UCITS retail scheme ("NURS") as defined for the purposes of the FCA's Collective Investment Schemes Sourcebook as amended (the "Rules") and may also invest in other asset classes specified by the Rules and within the limits of the investment and borrowing powers prescribed by the Rules and the Prospectus. Derivative and forward transactions may be used by the Fund. Subject to the Fund's objective, policies and investment powers, it allows the Investment Manager to make discretionary choices when deciding which investments should be held in the Fund.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income units. Investors can buy and sell units on demand when the scheme prices daily at 10.30 pm.

### Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of the Fund price which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The Fund may use derivatives to reduce costs, overall risk and/or generate additional capital or income. This is known as Efficient Portfolio Management (EPM). When used for EPM purposes, there should not be an increase in the overall risk level of the Fund.
- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- More political, economic or structural challenges face emerging markets or less developed countries than developed countries which may increase volatility and uncertainty.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- A change to the tax status of the Fund or the applicable tax legislation in the markets within which the Fund invests could affect the value of an investor's units.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.25%
Exit Charge	5.25%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.81%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 2nd April 2019. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Expenses Payable out of the Property of the Fund" of the Fund's Prospectus, which is available on request via email to [thesisut@tutman.co.uk](mailto:thesisut@tutman.co.uk)
